

A ZEST FOR LIFE

Make a splash this summer with bold, colorful pieces. **Sunny yellows, sky blues, grass greens & sunset reds** evoke the vibrancy of the season. These bright hues can even bring an uplifting mood to your space. This season live bright and be inventive with color!

tribal blues

Inspire a serene scene with deep blue and emerald green - the Pantone® color of the year. Here, the rejuvenating color palette goes global. Our Naomi chair is a modern vision of style in a trendy tribal print. Ikat and Moroccan patterned accents elevate the worldly theme along with our curvaceous bronze floor lamp. Mix in bright emerald accents such as our art glass or use aviary art to enliven your space.

radiant reds

Crimson is an impactful hue that adds excitement. Find a bold, red accent to anchor your room. A traditional area rug such as our Milan is a perfect dramatic piece. Then, weave in textured accents and exciting finishes like our luxe throw, carved box and pebbled bronze vase. Complete your red room with pops of green and yellow drawn from the accent pillow and wall décor.
